

hi-tray

A RIGID DISPOSITION

Clinical
Impression Trays

Zhermack[®]
CLINICAL

hi-tray

The solution for every impression.

The **complete range** of **impression trays for** fixed dentures (**metal** and **plastic**) and for removable dentures (**non-deformable plastic**).

hi-tray metal

hi-tray light clear

hi-tray light plastic

hi-tray light edentulous

hi-tray

RIGID

› The rigidity **prevents distortion** during the setting of the impression.

STERILIZABLE

› **Resistant** to the **high temperatures in an** autoclave.

RETENTIVE

› **High degree of anchorage** of the impression material guaranteed by the conformation of the impression tray.

VERSATILE

› **Complete range** of impression trays in **stainless steel** and **plastic** for all clinical situations.

hi-tray metal

Reliable and durable.

Impression tray for standard applications
In **special BSA stainless steel** with 16.70% chrome.

HI-TRAY METAL

FEATURES

- Possible to cold **sterilise** and in autoclave
- Available in **two versions**:
solid
perforated

ADVANTAGES

- **High resistance** to deformation
- **Greater precision** of the impression
- **"Rim lock" design** for **perfect mechanical retention** of the material to the impression tray
- **Optimum degree of finishing**
- **Long duration**

hi-tray light

clear and plastic

Disposable and versatile.

HI-TRAY LIGHT CLEAR, the impression tray in **clear plastic** for standard applications.

HI-TRAY LIGHT PLASTIC, the impression tray in **grey rigid plastic** for standard applications.

FEATURES

- Made in **transparent** plastic, ideal for chromatic impression materials (**HI-TRAY LIGHT CLEAR**), or **grey** plastic (**HI-TRAY LIGHT PLASTIC**)
- Available in the following **versions**:
small (upper and lower)
medium (upper and lower)
large (upper and lower)
partial (upper, right and left)

HI-TRAY LIGHT CLEAR

HI-TRAY LIGHT PLASTIC

ADVANTAGES

- **Rigid** and **non-deformable**
- **Disposable**
- **Can be sterilised in autoclave**
- **Adaptable**
- **Perforated design** for **improved mechanical retention**
- **Reinforced grip** with ribbing for **improving the distribution** of the pressure exerted

hi-tray light edentulous

Anatomic and resistant.

Anatomic impression trays in **green rigid plastic** for edentulous arches.

HI-TRAY LIGHT EDENTULOUS

FEATURES

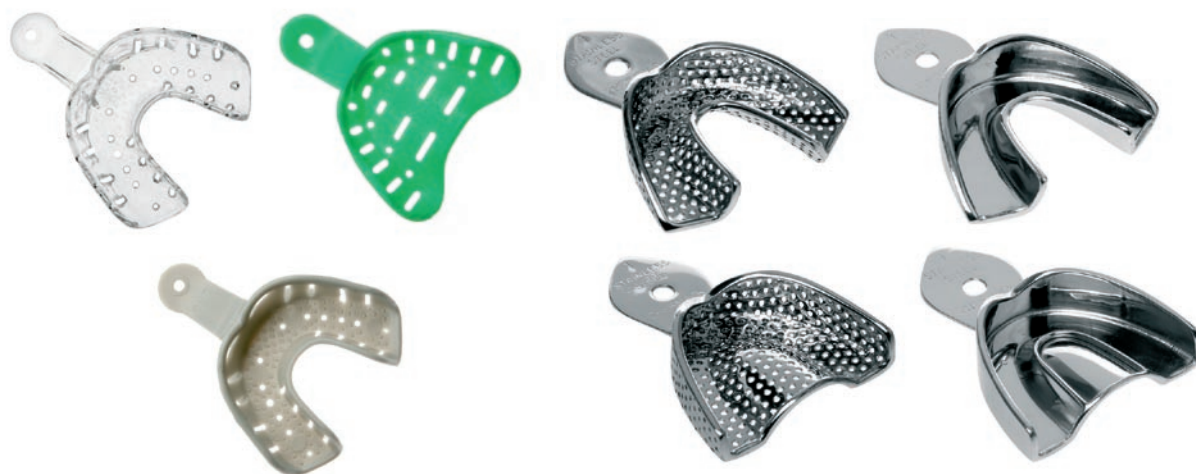

- Made in **green** plastic
- Available in the following **versions**:
 - small** (upper and lower)
 - medium** (upper and lower)
 - large** (upper and lower)

ADVANTAGES

- **Rigid** and **non-deformable**
- **Disposable**
- **Adaptable**
- **Perforated design** for **improved mechanical retention**
- **Reinforced grip** with ribbing for **improving the distribution of the pressure** exerted
