

SMART-PORT

Features

- » 1 Three-way syringe (air/water/spray) with sterilisable tips (hose and tips detachable)
- » 1 Electric micromotor with LED light (0-40,000)
- » 1 Electric scaler with LED light
- » Instrument hoses detachable
- » Spray adjustment regulators for each instrument
- » Integrated spray water system for syringe and instruments (check valve prevents the back flow of water)
- » 1 Spray water tank: 1 litre
- » 1 High-performance suction hose with the patent-pending BPR Swiss technology (with adapter for saliva ejector tips and oral-dry-cup)
- » 1 Suction fluid container: 1 litre (automatic overflow protection)
- » Pressure regulator-filter
- » Sturdy, air- and water-tight plastic construction, will not scratch, dent or corrode
- » Detachable front cover
- » Disc type foot control
- » Integrated compressor – oil-free: Max. Pressure: 4 bar; Sound pressure level: 48 dB
- » Integrated aspirator with the patent-pending BPR Swiss technology
- » Accessories: Instrument case for instruments and consumables

Technical Data

- » Handpiece pressure: 3.0-4.0 bar
- » Each instrument is individually adjustable
- » Weight: 11.0 kg
- » Dimensions: 470 x 340 x 190 mm

Warranty: 2 years

Options: Polymerisation lamp, contra-angles, etc.

The SMART-PORT by BPR. The lightness of being.

The cleverly designed SMART-PORT integrates the most important functions and operations of a dental treatment unit in a single 11-kilogram case. To activate the SMART-PORT simply insert the power plug into an outlet. The integrated electric micromotor with LED light and the integrated electric scaler with LED light both have full performance capability. Through the use of various contra-angles, speeds of between 0-200,000 rpm can be achieved. The high performance of the SMART-PORT is complemented by a highly efficient patent-pending suction. In addition to its unparalleled performance, the SMART-PORT offers all-around convenience. The clever design allows for quick and easy assembly and disassembly of the unit. In addition, the SMART PORT has a remarkably quiet oil-free compressor (48 dB!) and convenient externally removable instrument hoses.

The SMART-PORT by BPR. The lightness of being.
