

# 2.5 Litre

## Exclusive bottle with multi level dosing cap

The exclusive 2.5L bottle has been designed for ultimate stability and handling of concentrated infection control solutions including disinfectants and cleaners.

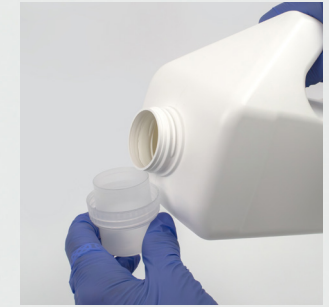

Each bottle includes a multi level dosing cap for accurate dilution. Each cap is able to accurately dose 20ml, 30ml and 40ml of concentrated solution. This covers all concentrated infection control products included in our range.

Use back label to find correct dilution ratio

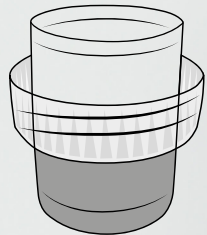

Remove dosing cap

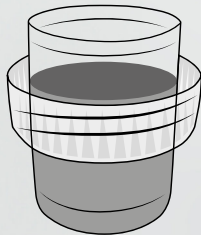

Carefully pour solution to required fill level
